THE COUNTDOWN TO MAKE IT 2009 HAS BEGUN ...

Building on the success of last year **Make It**, the fabulous craft show will be returning to Farnborough in February for what is hoped to be the biggest and best event yet. **Make It** will be taking place at Farnborough FIVE from **Friday 20 February** until **Sunday 22 February**, so crafters - make sure that the date is in your diary NOW!

Last year there were 120 participating companies at the show and over 11,500 visitors came to see what they had to offer over the three days, making **Make It** the largest craft event in the South. And this year the show will be bursting with more inspirational creative craft ideas than ever. With stands, workshops and demonstrations to suit almost every kind of crafter, there will be something to please all the family. Cardmaking, scrapbooking, stamping, glass painting, 3D picture sculpture and beading are just a few of the crafts you'll be able to learn more about - and the light, bright and spacious atmosphere and wide aisles will make for a very pleasant shopping experience, whilst offering plenty of room to stand and watch free demonstrations too!

Full details about all the exhibitors and hands-on activities can be viewed online at www.make-it.org.uk

Make It event information:

Make it will take place at Farnborough FIVE. Opening times are 10am – 5.00pm each day (wheelchair access from 9.30).
