### **SPRING INTO ACTION AT MAKE IT** **The most exciting craft event in the south**

Make it 2010, the biggest exhibition for crafters in the South, is a 'must attend' event for keen crafters of all abilities. Taking place on 26, 27 and 28 February at FIVE, Farnborough Airport, the show will be brimming with the latest inspirational craft innovations and everything you need to spring into crafting action.

Make it regularly attracts the top names in the craft world and thousands of enthusiastic visitors and the 2010 show will be no exception. This event presents crafters with the perfect opportunity to see all their favourite brands and exhibitors (and lots of new ones) in one place, at one time. Experts will be on hand to demonstrate brand new techniques and offer specialist advice on how to get started. Total beginners and the most dedicated and experienced crafters will be astounded at the breathtaking array of craft materials and supplies on display and on sale. Thousands of papercraft, bead craft and hobby craft supplies, kits and materials, free exhibitor demos, make 'n' takes and a fabulous line up of card making and beading workshops complete the all-action line up at Farnborough in February.

On a practical note event organiser, Kate Valentine, says, "We take pride in ensuring that we bring our visitors the very best the craft industry has to offer - spacious shopping aisles, freedom of movement for disabled visitors and wheelchair users and convenient free parking for all. We are looking forward to welcoming back thousands of crafters who visit the show every year, without fail, including many of them who attend the show for the full 3 days."

**More/...**
